REMSOFT UPDATE

FUN GAMES FOR KIDS SERIES

Enclosed you will find our all new catalog expansion. One of the new features introduced here is our FUN FOR KIDS SERIES. The programs in the FUN GAMES FOR KIDS I package (see programs 1837 to 1849 on pages 4 and 5 of this newsletter) were chosen for several reasons. First, many are 'educational games' in which the user actually learns (or improves an already existing skill) while playing the game! Examples of this include: WORD SCRAMBLE, FACTOR FOE and OUT ON A LIMB (these programs with their variable skill levels are suitable for kids and adults.) Second, they were chosen for their ease of operation and bright colorful graphics. The ease of operation does not take away from the quality of the programs. Finally, we hand picked these programs because they are just as fun for adults as they are for kids!

NEW ENTERTAINMENT SOFTWARE

The other games in our catalog expansion (see programs 1828 to 1836 on pages 3 and 4 of this newsletter) are highly challenging games that are sure to please any taste. Strategy, logic, board games include: WORD WHEELS, GRID LOCK, BLOCK OUT, TILO, and TRIANGLE 567. These are amongst the best we have. In all cases, the computer plays extremely well and very fast (you may also play a human opponent if you wish.) For adventure lovers, we have included two 'super classics' developed brand new by REMSOFT: BASEMENTS AND BEASTIES and THE QUEST. Both are quite extensive, and are well proven to be fun. Arcade-Action people are represented as well, with our exclusive: BATTLE FRONT and NOTEWORTHY. They are fast and easy to play, yet very challenging.

SUPER UTILITIES AND EDUCATIONAL

We have included extensive educational packages in this expansion. The MEDICAL ALERT SYSTEM is not only very educational, but very utilitarian as well. The system includes several separate programs on a single disk like a disk collection, but all are carefully integrated into one system. MUSIC SKILLS TRAINER adds to our already extensive collection of quality musical education programs. This one is useful on several levels because of options to control level of difficulty. Students and parents should not pass this one up! One of the most extensive learning packages we've ever developed is our exclusive BRIDGE BIDDING SERIES (see pages 5 and 6 of this newsletter.) The series (available in three segments, or all together) includes eighteen (18) programs - each representing a different lesson or concept. Whether you're a beginner or an expert, this series will greatly benefit you. On the more technical side, we now have a very complete math routine package (see page 6 of the newsletter.) All it takes is a quick look to see how extensive it is!

SUPER VALUE DISK COLLECTIONS

REMSOFT is proud to offer a series of economical and convenient software packages for the Commodore 64 and 128. Each package consists of 10 or more quality programs at the special price of only **15.95 PER PACKAGE.** This is a huge savings from the normal catalog prices. All packages are $15.95 except D301, which is $6.95. When ordering, please use the enclosed REMSOFT order form. Indicate your choices by entering the disk collection code in the 'program code' column of the software order form. In addition to the programs listed on this page, all disk collections contain free bonus programs! An important note regarding disk collections: OFFER #3 on the THREE FANTASTIC OFFERS flyer includes REMSOFT VOLUME 9 absolutely free. Volume 9 is a collection of 20 specially chosen applications of the highest quality. Please read the THREE FANTASTIC OFFERS flyer for details on this fabulous free-software offer.

SPECIAL COUPON
SAVE 50%
ALL NEW FOR 1989
THE REMSOFT CHRISTMAS ALBUM VOL. 2
Regularly Priced at $15.00

Good only with the purchase of any
SPECIAL HOLIDAY OFFERS (See enclosed)

For Only $7.50 You Receive:
THE REMSOFT CHRISTMAS ALBUM VOL. 2
Another fabulous full disk including dazzling graphics,words and musical arrangements for 20 favorite Holiday Songs. A magical companion to, our popular Vol. 1 album.

1828 WORD WHEELS ($3)
An all-new, multiple skill level word game for your Commodore. Like the game 'Wheel Of Fortune', it involves discovering a well known phrase. The difference is that you don't know ahead of time the number of words, nor their length - and instead of spinning a wheel, you get to spin several columns of letters. Very original and easy to learn, yet highly challenging!

1829 BASEMENTS AND BEASTIES ($4)
The classic adventure game is back with this original version from REMSOFT. This extensive adventure is one of the best ever designed, and is a must for your personal software collection.

1830 THE QUEST ($5)
This extensive adventure program (like Basements and Beasties above) is one of the finest, classic adventure concepts. Includes the ability to Role (define) characters using a number of parameters. The separate instruction program is quite extensive itself, and will provide much insight into the operation of the adventure.

1831 GRID LOCK ($3)
A superb counter-moving game played on a chessboard, in which one white counter and one yellow counter are placed randomly in each row. Pieces are moved horizontally left or right to any available space with no jumping allowed. The player that is [eventually] unable to move, loses the game. Play the computer or a human opponent, or watch the computer play itself! Fun and fascinating, always challenging.

1832 BLOCK OUT ($3)
This delightful blockade-style game is played on a five by five matrix, with white and yellow pieces distributed in checkerboard fashion. You and the computer (or human opponent) alternate moves into the one empty square (like puzzle 15) untill one player is blocked-out (i.e., the empty square is surrounded by one color.) This well written program is easy to learn and fun to play!

1833 BATTLE FRONT ($2)
An arcade style game that will challenge and delight you! The beauty of this program is in it's simplicity - only a few keys (or a joystick) are required, yet it provides a real challenge to master! Carefully guide your shots to hit tanks, buildings and enemy missiles.

1834 NOTEWORTHY ($3)
Another arcade game, with FANTASTIC graphics and animation. Collect the musical notes and make it through the maze, while outsmarting the Roboids, Grumps, Slug Creatures and Mad Dogs.

1835 TILO ($5)
One of our very best in quality and design! TILO is the well-known Australian board game (similar in concept to Othello - but a very different game) in which you compete with the computer, or a human opponent. Includes Replay mode, help from the computer and astonishing graphics.

1836 TRIANGLE 567 ($3)
A pegjumping solitaire game on a triangle shaped playing board. Even when you conquer one of the skill levels in this program, there are several more skill levels to challenge you.

1837 FUN GAMES FOR KIDS I ($15 VERY SPECIAL PRICE)
The first FUN GAMES FOR KIDS series (1838-1849) is a real delight. The programs are easy to use, and include high quality graphics, color and sound. All TWELVE selections for $15 or as individually priced.

1838 HOLEY MOLEY ($2)
Move the farmer around the screen and hit the moles - if you miss, you lose a carrot. If you run out of carrots it's all over!

1839 PETER COTTONTAIL ($4)
The magical eggs have been hidden in a maze. By following the clues given, you can be the first to find them. Great fun.

1840 AARDVARK ($2)
The goal is to eat as many bugs, before being eaten yourself.

1841 CANADIAN DAMBUSTERS ($3)
You are a Canadian beaver and must prevent the otters from destroying your dam. An excellent non-violent approach is used by this program.

1842 MISTER KITTY ($3)
Another great REMSOFT original! Keep the noisy kitty safe from angry neighbors and mean dogs. Beware: A cat only has nine lives! Includes the bonus program MOUSE SQUISH (for all you feline lovers.)

1843 PI-RING SQUAD ($3)
A pie throwing contest of the highest quality. Try to avoid the pies thrown at you, while throwing a few bannana creams yourself.

1844 TEXAS TRUCKER ($3)
You're driving in the hill country of Texas, and must avoid Giant Armadillos, Huge Potholes, Texas Sized Skunks, Giant Jackrabbits and a Herd of Turtles. Fun for all ages!

1845 WEBSTER DINES OUT ($2)
You must move Webster the Spider and drop him by his web carefully, so as to capture and eat as many insects and bugs as possible.

1846 WORD SCRAMBLE ($3)
A multiple option word scramble game that is suitable for children and adults. Options include: One or two players; Length and numbers of words; Time limit to solve; And complexity of scrambling.

1847 GIANT TIC TAC TOE ($2)
Giant, colorful graphics make Tic Tac Toe super fun for kids.

1848 FACTOR FOE ($3)
This educational game provides an excellent opportunity to sharpen your factoring and addition skills. Compete with the computer (the factor foe) in manipulating factors and products. Level of difficulty ajustable from ages 8 to adult.

1849 OUT ON A LIMB ($4)
Fantastic word guessing game, that provides great educational fun! Keep the animated monkey on the limb by choosing the correct letters. If you make too many mistakes the monkey will fall into the water below. Excellent graphics and animation.

4401 MEDICAL ALERT SYSTEM ($7)
This system allows you to maintain emergency phone numbers and has extensive sections dealing with the following: Poison/Drug Alert; Medical Alert (everything from severe bleeding to convulsions); Poison Primer (an extensive guide and drills for the prevention of poisoning); Poisonous Plants (Primer and Alert.) Very informative and useful.

4402 MUSIC SKILLS TRAINER ($4)
A series of four drills designed to test your musical abilities and improve your listening skills. Drills include: Pitch Guess (train your ears to identify notes); Interval Recognition (determine the interval between two notes); Chord Recognition (identify types of chords); Phrase Recall (improves aural memory.) Each drill has a variety of options which determine the difficulty level.

4403 TOTAL BRIDGE BIDDING SERIES ($15)
Our Bridge Bidding Series (4404-4406) consists of eighteen (18) programs, that cover every possible bidding situation. The interactive nature of these programs make them easy to use, but do require (at least) a basic knowledge of how to play the game and bid. Compiled by experts of the game, our series is suitable for novices and experts alike.

4404 BRIDGE BIDDING BASICS ($7)
A series of six programs (a little over a dollar per program!) each representing a major lesson involving BRIDGE BIDDING. The object is to show you the steps necessary to reach the correct contract for a particular hand. Includes: Opening Bids; Overcalls One; Overcalls Two; Game Bidding; Choice of Suits; No Trump or Suit.

4405 BRIDGE SLAM BIDDING ($7)
A series of six programs each one a major lesson involving SLAM BIDDING. The programs allows you to practice slam bidding, and explains bridge bidding conventions which can help you determine whether you should bid a grand slam, a small slam or no slam. Includes: Ace-Asking Conventions; Source of Tricks; Adequate Trump Suit; Cue Bidding; Asking Bidding.

4406 BRIDGE COMPETITIVE BIDDING ($7)
Six programs, each one a major lesson involving COMPETITIVE BIDDING. Allows you to practice competitive bidding as you learn conventions that are useful in competitive situations. Includes: Discipline; Partnership Trust; Preemptive Bids; Takeout Bids; High Level Judgment.

3001 WOOD WORMS	**3007 JEWELS ON VELVET**
3002 COLOR MAGIC	**3008 MULTIVISION**
3003 SUPER VISION I	**3009 OPTICAL ILLUSION**
3004 SUPER VISION II	**3010 10,000 SIGHTS**
3005 MILLION MIRAGES	**3011 SUPER VISION III**
3006 KALEIDOVISION	**3012 ESCHER ARTS**

The programs listed above are all GRAPHICS programs that are available individually at $1.50 per program, or all twelve (12) selections for $6.95 by ordering DISK COLLECTION D301 (please see page 2 of this newsletter for more information regarding this and other Disk Collections.) These programs might be considered 'entertainment' graphics programs, as they are primarily animated color displays and kaleidoscopes (the Color Magic program on the REMSOFT introduction disk is an example of this.) Many allow user interaction, and numerous options to control the display.

7280 MATH ROUTINE LIBRARY ($9)
Five full-featured math programs from the leader in technical software: REMSOFT. Designed to cover the most important and most often used math routines, this series is professionally written and provides reliable accurate results. All five programs (7281-7285) for $9 or as priced below.

7281 B/P/H ($3)
Bases, Primes and Hyperbolics (B/P/H) deals with the following: Universal Base Conversion, Prime Factorization, Hyperbolics, and Inverse Hyperbolics.

7282 FOURIER SERIES ($3)
Expansion of a periodic function into a series of sines and cosines. Computes the Fourier-Series for the given function or discrete values.

7283 FUNCTION ANALYSIS ($3)
This excellent function analysis system includes the follow selections: Graphing; Function Table; Integrate; Differentiate; Find Zeros.

7284 O/D/E ($3)
This program allows the computation of Ordinary Differential Equations. Up to twenty initial-condition functions may be defined.

7285 SIMEQ AND MATRICES ($3)
Allows the computation of Simultaneous Equations and Matrix Inversion. Includes the following options: Enter Matrix; Display Matrix; Change Elements; Invert Matrix; Compute Determinant; Solve Equations; Re-direct Output (screen/printer); [As in all programs] Snapshot Save and Load!
